May/June 2009

A message from your Team - Web Tools are Open 24/7

Have you ever spent an hour searching for a form or trying to put your hands on a crucial bit of information?

To help eliminate those time wasting searches, a wealth of information can be found on the Association's website, www.mtequipmentdealers.com (Click on: Member Benefits / Montana Financial Services).

You can find valuable information 24/7 without having to make phone calls or rummaging through paper or electronic files.

We update the resources often. For example, we just made updates to our credit application form so it includes new requirements and the formatting has been enhanced. You can easily click on the Credit Application link and download the approved form. Once you have the form open, you can choose to view, print, or save it.

The site is part of our effort to actively support the growth of you as an association member. It also offers your entire dealer sales team with access to all the finance tools.

Last, your customers can utilize an online tool called Payment Estimator. It's an easy way to compare payment options and get pre-qualified.

We built in a lot of information and included many forms and resources to make your life easier. You can access this information from any computer connected to the Internet. Take a quick look at www.mtequipmentdealers.com (Click on: Member Benefits / Montana Financial Services) today.

Contact any member of your team to talk more about online tools. We always look forward to hearing from you!

Thank you for supporting your Association!
